

ONLINE SEMINAR

RELIABLE & EFFECTIVE PRODUCT COMPLIANCE MANAGEMENT

PART I: JANUARY 22, 2025 // 09:00 A.M. – 03:00 P.M.

PART II: JANUARY 23, 2025 // 09:00 A.M. – 03:00 P.M.

Compliance has a high priority over the entire lifecycle of products. An efficient Product Compliance Management System, PCMS for short, ensures the legal and regulatory conformity from the start of the development process over the whole lifecycle. An integral part of a PCMS is knowledge of the applicable legal regulations in the respective markets. This includes the public law requirements for placing on the market as well as the individual product liability regulations. In this online seminar **Michael Loerzer** as the President of Globalnorm GmbH and certified Product Compliance Officer (in acc. to ISO/IEC 17024) provides valuable basic knowledge of key markets such as the European Union, the USA and China.

MAIN FOCUS

- What you should know about public law and product liability legislation in general
- What to expect in the regulatory landscape of the European Union (old vs. New Approach, conformity assessment, market surveillance)
- What defines the regulatory landscape in the USA and China (from certification and approval systems to market surveillance)
- How to implement an effective Product Compliance Management in your organisation
